Approve and authorize Chairman to execute the Revision of the Planning Grant to revise the Local Mitigation Strategy Plan to comply with the Disaster Mitigation Act of 2000.

BACKGROUND:

The Florida Department of Community Affairs offered the availability of a planning grant for Seminole County to assist the Local Mitigation Strategy working groups in bringing the Local Mitigation Strategy into compliance with the Disaster Mitigation Act of 2000 criteria. The Board of County Commissioners approved the grant on May 13, 2003.

The original grant amount that was approved was \$20,000 but has since been reduced to \$15,000 cash with a Seminole County in-kind services match of \$5,000. This correction will reflect staff's original intent and fully fund the necessary grant activities.

2. If any material adverse change shall occur in the financial condition of the Recipient at any time during the term of this Agreement from the financial condition revealed in any reports filed or to be filed with the Department, and the Recipient fails to cure said material adverse change within thirty (30) days from the time the date written notice is sent by the Department.

3. Documentation, where appropriate, that existing plans, studies, reports, and technical information were or are being reviewed and are being incorporated into the plan. This documentation must include FMA and CRS plans, if applicable
4. A description of the planning process that is being used to develop the plan, including how it is being prepared, who is involved in the process, and how the public is involved.

Second Deliverable

Timeframe: Due by April 30, 2004.

Estimated Cost: **\$5,500.00**

Federal Share: **\$3,750.00**

Local Match: **\$1,750.00**

By the due date, the Recipient shall provide the Department with the Second Contract Period Deliverable consisting of:

1. A description of the type of all natural hazards that can affect the jurisdiction. At a minimum the Plan must address the following hazards: Earthquakes; Tsunamis; Coastal and Riverine Erosion; Landslides/Sinkholes; Hurricanes and Coastal Storms; Severe Storms/Tornadoes; Floods; Wildfires; Dam/Levee Failure; Drought/Heat Wave; and Winter Storms/Freezes. The description must document how any additional hazards were identified. If any of the above hazards are excluded, the Plan must document why they were excluded from the jurisdiction's hazard analysis.
2. A description of the location and extent of each identified hazard that can affect the jurisdiction. The plan shall include information on previous occurrences of hazard events and on the probability of future hazard events for each identified hazard. When appropriate, the hazard analysis should also identify on a map the areas affected by each identified hazard.

3. A description of the jurisdiction's vulnerability to each identified hazard. The description shall include an overall summary of each identified hazard and its impact on the community.
4. A description of vulnerability in terms of the types and numbers of existing buildings, infrastructure, and critical facilities located in each identified hazard area. A rationale for designating a facility as critical shall be included in this section. In the first update of the plan the vulnerability description should also include a discussion of future buildings infrastructure and critical facilities, and the potential human and economic impact that each identified hazard would have on the jurisdiction.
5. A description of vulnerability in terms of an estimate for each identified hazard of the potential dollar losses to vulnerable structures identified and a description of the methodology used to prepare the estimates.
6. A general description of land uses and development trends within the jurisdiction so that mitigation options can be considered in future land use decisions.
7. An assessment of each jurisdiction's risks where they vary from the risks facing the entire planning area for each identified hazard.

Third Deliverable

Timeframe: Due by August 31, 2004.

Estimated Cost: **\$5,500.00**

Federal Share: **\$3,750.00**

Local Match: **\$1,750.00**

By the due date, the Recipient shall provide the Department with the Third Contract Period Deliverable consisting of:

1. A mitigation strategy that provides the jurisdiction's blueprint for reducing the potential losses identified in the risk assessment based on existing authorities, policies, programs and resources, and its ability to expand on and improve these existing tools. The Mitigation Strategy shall address FEMA's Floodplain Map Modernization Program and Repetitive Loss Initiative including: prioritization of mitigation measures towards repetitive loss properties; fulfillment of CRS planning requirements, and FEMA's on-going field and database verification projects for repetitive loss properties.
2. A description of mitigation goals to reduce or avoid long-term vulnerabilities to the identified hazards.
3. A plan section that identifies, evaluates, and analyzes a comprehensive range of specific mitigation actions and projects being considered to reduce the effects of each hazard identified, with particular emphasis on new and existing buildings and infrastructure.
4. An action plan describing how the actions identified will be prioritized, implemented, and administered by the local jurisdiction. This Section shall include the implementation timeline; the funding sources or other resources that will be used to implement the strategy, when possible; and the agency or personnel responsible for carrying out these actions. For FEMA program funding these mitigation measures must be cost effective, environmentally sound and technically feasible. The local jurisdiction and the State must prioritize the measures based on these criteria.
5. Individual action items for each jurisdiction requesting FEMA approval of or credit for the plan. For FEMA program funding these mitigation measures must be cost effective, environmentally sound and technically feasible. The local jurisdiction and the State must prioritize the measures based on these criteria.
6. A plan section describing the method and schedule of monitoring, evaluating and updating the mitigation plan within a five-year cycle.
7. A description of the process by which local jurisdictions incorporate the requirements of the mitigation plan into other planning mechanisms such as comprehensive or capital improvement plans, when appropriate.
